

Becoming a Professional Accounts Assistant

Duration: 5 Days

Language: en

Course Code: PF1-115

Objective

Upon completion of this course, participants will be able to:

- Develop a working knowledge of how finances affect the wider operation.
- Create a prioritisation matrix for record-keeping and account management.

- Understand accounting terminology and make informed and strategic decisions to improve your organisation's processes.
- Upgrade your communication and negotiation skills and maintain a positive relationship with suppliers and partners.
- Develop your analytical skills and highlight when you predict potential problems based on reporting.
- Read and accurately interpret financial information from reports.
- Review various company financial data to recognise trends and make positive changes in your organisation.

Audience

This course is designed for anyone responsible for managing company accounts or finances. It would be most beneficial for:

- Business Owners
- Trainee Accountants
- Directors
- Financial Professionals
- Chief Financial Officers
- HR Professionals
- Payroll Associates

Training Methodology

This course uses various adult learning methods to aid full understanding and comprehension. Participants will review various accounting systems and technologies to understand the benefits of each. They will then review real-world accounting methods and conduct group discussions to ask and answer common questions relating to accounting. Interactive workshops containing mock figures and accounts will help groups familiarise themselves with their newly learned tools and techniques. A final feedback session will determine how their new working knowledge may benefit their organisation. Finally, participants will create an action plan to develop the next steps within their role.

Summary

A professional accounts assistant is a key role in any organisation. Their main job is to keep track of finances, company accounts, invoicing, and taxes to ensure the business stays ahead of the game.

An accounts assistant must understand the wider operation and how it relates to the company's finances. They will also need to generate productive and beneficial working relationships with partners and stakeholders and work with suppliers to maintain the best deals for products and services.

It is important to maintain excellent customer service and communicate with partners or suppliers. Also important are organising diaries and meetings and filing paperwork effectively and efficiently to keep all company accounts in order.

The professional accounts assistant course will develop your working knowledge of internal accounts, taxation, purchasing and ledger keeping to ensure inventory is always up to date and payments are made on time. This keeps your business above competitors and gives you a good reputation with suppliers and customers to ensure future company growth.
