

Chief Operating Officer (COO)

Duration: 5 Days

Language: en

Course Code: MG2-172

Objective

Upon completion of this course, participants will be able to:

- Fully understand the duties and obligations associated with the COO position.
- Integrate the role within the organisational framework of your organisation.
- Discover various tools and methodologies for crafting and using optimal metrics to gauge cost-effectiveness, operational risk, profitability, and customer service quality.
- Create strategies for inspiring and retaining well-suited personnel.
- Guide internal political dynamics and navigate practical hurdles inherent in fulfilling the COO role.
- Effectively communicate and report as a COO.

Audience

This course is designed for anyone seeking to progress into a Chief Operating Officer position or anyone looking to enhance their skills. It would be most beneficial for:

- Aspiring COOs
- Current COOs
- Directors
- Chief Executive Officers
- Project Managers
- Business Owners
- Head of Operations
- Risk Managers
- Control Function Managers

Training Methodology

This course uses a variety of adult learning styles to aid full understanding and comprehension. Participants will discover what it takes to become a successful COO and watch video testimonies from various COOs to learn about the key development areas and understand where risks can occur.

They will work in groups to overcome challenges posed by real-world case studies and present solutions to the rest of the group.

Summary

The Chief Operating Officer (COO) holds a critical position within an organisation, overseeing the day-to-day operational aspects and ensuring the implementation of strategic goals. Serving as the right hand to the CEO, the COO is responsible for translating high-level strategies into actionable plans, optimising business processes, and fostering operational efficiency.

Their role often encompasses managing key departments, coordinating various teams, and aligning organisational efforts to achieve overall objectives. The COO plays a pivotal role in maintaining seamless communication between different departments, promoting collaboration, and identifying workflow improvement areas.

The COO contributes significantly to the company's bottom line by actively addressing operational challenges and enhancing organisational effectiveness. Their strategic insights, coupled with a focus on execution and operational excellence, make them essential in steering the organisation towards sustained growth, adaptability, and success in a dynamic business environment.

Course Content & Outline

Section 1: COO Responsibilities

- Strategic responsibilities, including aligning operations with business objectives.
- Operational efficiency and process optimization under the COO's purview.
- Team management and collaboration across various departments.
- Implementation and execution of organisational strategies.
- Balancing cost-effectiveness with quality and operational risk management.
