

**Duration:** 5 Days

**Language:** en

**Course Code:** PI1-128

## Objective

Upon completion of this course, participants will be able to:

- Develop robust disaster recovery plans using digital tools.
- Integrate cloud solutions for business continuity.
- Mitigate cybersecurity threats during crises.
- Leverage AI for predictive analysis and recovery.

## Audience

This course is intended for:

- IT Managers
- Business Continuity Planners
- Disaster Recovery Professionals
- Cybersecurity Specialists

## Training Methodology

This course uses a variety of adult learning styles

- Interactive Lectures
- Group Discussions
- Case Study Analyses
- Hands-on Workshops

## Summary

Ensuring business continuity and disaster recovery requires advanced strategies and modern technologies in the digital era. This course provides participants with the knowledge and skills to enhance organisational resilience in the face of digital threats and disruptions.

## Course Content & Outline

### Section 1: Digital Transformation in Disaster Recovery

- Overview of Digital Transformation
- Impact on Business Continuity
- Case Studies of Digital-Driven Recovery Efforts

## **Section 2: Cloud Solutions for Business Continuity**

- Benefits of Cloud-Based Recovery Solutions
- Implementation Strategies for Cloud Continuity
- Real-world Applications and Success Stories

## **Section 3: Cybersecurity in Crisis Management**

- Identifying and Mitigating Cyber Threats
- Integrating Cybersecurity into Recovery Plans
- Cyber Incident Response and Management

## **Section 4: Comprehensive Disaster Recovery Planning**

- Key Components of a Disaster Recovery Plan
- Developing and Testing Recovery Strategies
- Coordination with Stakeholders and Emergency Services

## **Section 5: AI and Machine Learning for Predictive Recovery**

- AI in Disaster Prediction and Mitigation
- Machine Learning Models for Crisis Scenarios
- Integrating AI into Recovery Frameworks

## **Section 6: Case Studies of Successful Implementations**

- Detailed Analysis of Notable Recovery Efforts
- Lessons Learned and Best Practices
- Adapting Strategies to Various Industries

## **Certificate Description**

Upon successful completion of this training course, delegates will be awarded a Holistique Training Certificate of Completion. For those who attend and complete the online training

course, a Holistique Training e-Certificate will be provided.

Holistique Training Certificates are accredited by the British Assessment Council (BAC) and The CPD Certification Service (CPD), and are certified under ISO 9001, ISO 21001, and ISO 29993 standards.

CPD credits for this course are granted by our Certificates and will be reflected on the Holistique Training Certificate of Completion. In accordance with the standards of The CPD Certification Service, one CPD credit is awarded per hour of course attendance. A maximum of 50 CPD credits can be claimed for any single course we currently offer.
