Legal And Ethical Governance In Healthcare

Duration: 5 Days

Language: en

Course Code: IND5 - 163

Objective

Upon completion of this course, participants will be able to:

- Understand and apply healthcare laws and ethical principles.
- Navigate regulatory frameworks and compliance requirements.
- Address ethical dilemmas in patient care and organizational policies.
- Enhance the quality and safety of patient care through ethical governance.

Audience

This course is intended for

- Healthcare administrators and managers
- Clinical professionals and practitioners
- Legal advisors and compliance officers in healthcare
- Policymakers and regulators

Training Methodology

This course uses a variety of adult learning styles to aid full understanding and comprehension.

- Interactive lectures and discussions
- Real-world case studies and examples
- Group projects and collaborative exercises
- Practical workshops on legal and ethical scenarios

Summary

This comprehensive course delves into healthcare's legal and ethical dimensions, preparing professionals to navigate complex regulatory and ethical landscapes. Emphasizing practical applications, the course covers key topics such as patient consent, legal reporting requirements, and ethical decision-making. Through interactive lectures and case studies, participants will gain a deep understanding of healthcare laws and ethical principles, ensuring they can confidently address challenges in healthcare settings.
