

# Global Health Diplomacy

**Duration:** 5 Days

**Language:** en

**Course Code:** PO2 - 126

## Objective

By the end of this course, participants will be able to:

- Discuss the foundations and evolution of global health diplomacy.
- Identify key stakeholders and institutions shaping global health policies.
- Analyze the role of multilateral agreements and governance structures in health policy-making.
- Explore financing mechanisms and funding sources for global health initiatives.
- Understand major global health security threats and response strategies.
- Develop negotiation and advocacy strategies to promote health equity.
- Apply diplomatic skills in real-world global health negotiations.

## Audience

This course is ideal for professionals involved in shaping global health policies, managing international collaborations, or influencing health diplomacy efforts. Suitable participants include:

- Public Health Officials.
- Diplomats and Government Representatives.
- International Development Professionals.
- Healthcare Executives and Policy Makers.
- NGO Leaders and Advocacy Specialists.
- Researchers and Academics in Global Health.

## Training Methodology

The training methodology of this course is designed to strike a balance between theoretical knowledge and practical application, ensuring an engaging and comprehensive learning experience. Participants will take part in interactive lectures and expert-led discussions that provide valuable insights into key concepts. Through case studies, they will analyze real-world global health challenges, gaining a deeper understanding of critical issues. Simulated negotiation and policy advocacy exercises offer hands-on practice in strategic decision-making, while group workshops encourage collaboration in developing innovative solutions. Additionally, peer-to-peer learning and networking opportunities foster knowledge exchange and professional connections, enhancing the overall educational experience.

## Summary

In today's interconnected world, health challenges are no longer confined within national borders. Global health diplomacy plays a crucial role in addressing public health issues through international cooperation, policy negotiations, and cross-sector partnerships. The ability to engage in diplomatic discussions and advocate for equitable health policies is essential for professionals working in global health governance.

This course provides participants with the knowledge and skills needed to navigate the complex landscape of global health diplomacy. Through an exploration of international health systems, multilateral agreements, and negotiation strategies, participants will develop practical tools to

drive impactful change. The training focuses on real-world case studies, interactive discussions, and strategic planning exercises to equip professionals with the ability to influence health policies on a global scale.

## Course Content & Outline
